## DEPARTMENTAL MEMO

### Official Adoption of the Blood 43 Regional Post-Crash Care Comprehensive Safety Action Plan

Hebron Fire Protection District has formally adopted its Blood 43 Regional Post-Crash Care Comprehensive Safety Action Plan as part of its official policy and guideline framework. HFPD supports the long-term goal of eliminating roadway fatalities and serious injuries by strengthening post-crash care in Boone County and surrounding areas. Through Blood 43, HFPD will implement and evaluate a post-crash care prehospital blood transfusion program from July 1, 2026, through June 30, 2031, focused on reducing delays to prehospital blood product administration for serious roadway crash victims with suspected life-threatening hemorrhage.

Signed,

---

**Adam McElhaney BSN, RN, NRP**
